TOTAL	-	-	*	24	-

Methodology: DHS provided EOIR with a file of 40,694 credible fear receipts for the period October 1, 1999 through September 30, 2003. EOIR manipulated the file to eliminate duplicate records, and was left with a file of 40,206 records. Of these, EOIR was able to match 36,799 in its ANSIR system (91.5%). The categories shown above are the primary outcomes of these matched cases, but there were a few cases that did not fit into these categories; e.g., cases granted some other form of relief. Note also that these categories are not mutually exclusive; the same case may be counted in more than one category. For example an alien who withdraws an application for relief may subsequently file for another form of relief, or may be ordered removed by the Immigration Judge. For this reason some of these cases may be counted more than once in this table.

<sup>a</sup>Although the source data from DHS was based on receipts, this data reflects EOIR's completion of the case. The fiscal year reflected in this chart indicates the year EOIR completed the case.

<sup>n</sup>Removal Orders include the decisions of: Deportation Order, Exclusion Order, Removal Order, Voluntary Departure Orders, and DHS Expedited Removal Orders affirmed by an Immigration Judge.

Methodology: DHS provided EOIR with a file of 40,694 credible fear receipts for the period October 1, 1999 through September 30, 2003.

EOIR manipulated the file to eliminate duplicate records, and was left with a file of 40,206 records. Of these, EOIR was able to match 36,799 in its ANSIR system (91.5%). The categories shown above are the primary outcomes of these matched cases, but there were a

few cases that did not fit into these categories; e.g., cases granted some other form of relief. Note also that these categories are not mutually exclusive; the same case may be counted in more than one category. For example an alien who withdraws an application for relief may subsequently file for another form of relief, or may be ordered removed by the Immigration Judge. For this reason some of these cases may be counted more than once in this table.

<sup>a</sup>Although the source data from DHS was based on receipts, this data reflects EOIR's completion of the case. The fiscal year reflected in this chart indicates the year EOIR completed the case.

Removal Orders include the decisions of: Deportation Order, Exclusion Order, Removal Order, Voluntary Departure Orders, and DHS Expedited Removal Orders affirmed by an Immigration Judge.

Methodology: DHS provided EOIR with a file of 40,694 credible fear receipts for the period October 1, 1999 through September 30, 2003.

EOIR manipulated the file to eliminate duplicate records, and was left with a file of 40,206 records. Of these, EOIR was able to match 36,799 in its ANSIR system (91.5%). The categories shown above are the primary outcomes of these matched cases, but there were a few cases that did not fit into these categories; e.g., cases granted some other form of relief. Note also that these categories are not mutually exclusive; the same case may be counted in more than one category. For example an alien who withdraws an application for relief may subsequently file for another form of relief, or may be ordered removed by the Immigration Judge. For this reason some of these cases may be counted more than once in this table.

<sup>a</sup>Although the source data from DHS was based on receipts, this data reflects EOIR's completion of the case. The fiscal year reflected in this chart indicates the year EOIR completed the case.

<sup>n</sup>Removal Orders include the decisions of: Deportation Order, Exclusion Order, Removal Order, Voluntary Departure Orders, and DHS Expedited Removal Orders affirmed by an Immigration Judge.
